

Unite your workforce

with LiveTiles Reach employee application & pocket intranet

With a secure, platform agnostic, and enterprise-ready design, Reach is your tool to boost engagement, connection, and productivity for all employees regardless of where they work!

ACCESS FROM MOBILE, WEB & MS TEAMS APPS

Reach is available across all devices - from Android, iOS, MAC, and PC via the web, mobile and Microsoft Teams applications

JOIN WITH OR WITHOUT MICROSOFT 365 LICENCE

Sign up with Microsoft, Gmail or personal email accounts. Reach offers single sign-on out through Azure AD and onboard external users such as partners and contractors.

UNIQUE CAPABILITIES TO INFORM & CONNECT

Inform with alerts and quick access to knowledge, procedures and guidelines. Engage with beautiful articles, social comms, peer-to-peer news, chat, events, and a mobile-first optimized UX.

CREATE TARGETED & MULTILINGUAL CONTENT

Target communications to audiences you specify. Effortlessly translate content into more than 60 languages and reach staff across locations and linguistic backgrounds.

BOOST PRODUCTIVITY WITH INTEGRATIONS

Integrate with Microsoft 365 through SharePoint Online and Teams. Connect Reach to collaboration platforms, HR systems and 1000s of other applications through it's API or Zapier.

EASILY DEPLOY FOR IMMEDIATE USE

Create your own Reach subscription and onboard users within minutes. Our multitenant SaaS architecture minimizes maintenance efforts and provides user adoption insights.

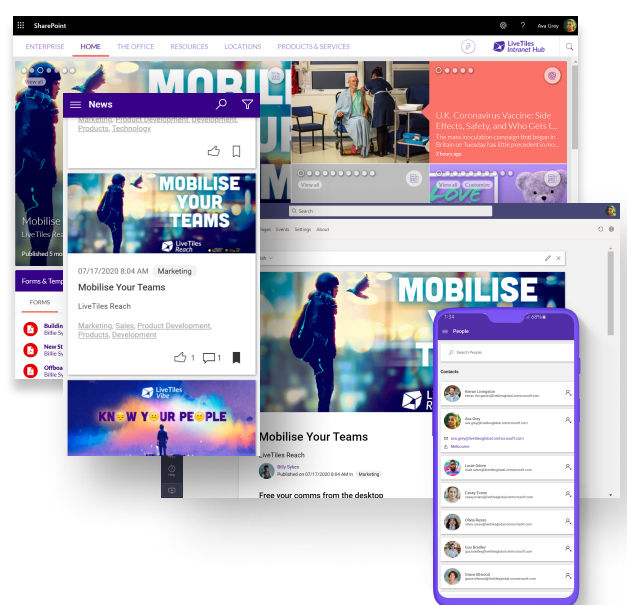

In our daily work with helicopters, safety and the associated communications are of the highest importance. We use LiveTiles Reach to communicate internal information, news, and interesting facts easily to all departments and employees.

Michael Peus,
HELI TRANSAIR European Air Services

ENTERPRISE-READY WITH INTEGRATION & CUSTOMIZATIONS

- Customise your Reach colours and logos with out of the box functionality to align with your company brand guidelines.
- Synced news content knowledge pages and events across mobile, web, SharePoint & Microsoft Teams.
- Scale as you grow and keep sensitive information safe with enterprise-grade security.
