LiveTiles Limited (ASX:LVT) (LiveTiles or the Company), the global leader in employee experience software for employee collaboration and communications, has today released its Appendix 4C and Quarterly activities report for the three month period ended 30 June 2021.

ARR growth history¹

¹June 30 2021 ARR is shown on a constant currency basis (when compared with 30 June 2020 FX rates).

LiveTiles defines ARR as contracted revenue, normalised on an annual basis, that LiveTiles has a reasonable expectation it will continue to receive from its customers for providing them with products and services. This definition includes committed recurring subscriptions for products and services, and includes service types where there is a demonstrable track record of repeat revenues such as support. It excludes revenue deemed unlikely to be recurring in nature.

BUSINESS AND OPERATIONAL HIGHLIGHTS

Over the past 18 months; in what has been challenging times globally with COVID-19, LiveTiles has continued to grow its ARR and cash receipts; whilst continuing to focus its efforts to reduce operating cashflow costs. These results have helped place the company in a strong position to manage the ongoing global COVID-19 challenges and uncertainties.

The LiveTiles Board commissioned an independent strategic review, led by an ex-McKinsey consultant experienced in working with global SaaS businesses. The review focused on the Company strategy, its go-to-market operations, its product and development focus and its organisational structure to help strengthen the business financially for future growth and position itself as the leader in the Employee Experience market. Further details of the strategy and realised savings and benefits from a restructure will be shared in the FY21 full year company results update.

In May, LiveTiles signed on the International Association of Microsoft Channel Partners (IAMCP) as a customer and strategic partner to help them broaden its communications and collaboration solutions, solely using LiveTiles Reach to engage its 2,000+ Microsoft partner network. IAMCP helps members across the globe, which are active in all major markets and represents \$10bn in partner revenues to maximise their business potential through peer-to-peer interaction, member advocacy, community outreach, growth and education—while enhancing ties to Microsoft. LiveTiles sees this as a great opportunity to extend our products into IAMCP's 2,000+ partner network and their end customers.

The Company announced on 15th April the appointment of two new non-executive directors joining the Board, Ms. Fiona Le Broq and Mr. Jesse Todd. Both bringing a wealth of growth expertise in leadership positions from global blue-chip companies across both brand strategy, marketing and scaling SaaS based enterprise businesses.

Our annualised recurring revenue (ARR) has continued on its growth trajectory and now sits at \$62.8m, a 17% increase year over year, in what has been an incredibly challenging 12 months of operating as a global business.
